

Visible Human Project Anatomical Methods LM-1-3535 Final Report

Appendix2. Content of DVDs enclosed

5 DVDs containing the histological scans at low resolution and the corresponding digital images of the cryosections.

63 Directories each containing a resolution pyramid of a histological slide at the following resolutions: 1600 dpi, 900 dpi, 300 dpi, 150 dpi PNG files

Disk #5 contains the digital images of the corresponding cryosection, starting with slice #0684. Uncompressed tiff files.

The missing 6 slides were scanned by Mircobrightfield, Inc. The images are available on the web site and will be separately delivered as individual files.
